

Item 1631

1. Product description:

Metric to Standard Shaft Adapter

Dimensions (in):	M14-2 a 5/8" -11H
Dimensions (mm):	M14-2 a 15.9 -11H
Material:	Metal
Specification:	FLECHA MM A STD

RI =	M14-2
RE =	5/8" - 11H
LT =	42 mm
S =	19 mm

1. Application

- Easily converts your machine spindle thread.
- Suitable for mounting cones, brushes, felt wheels, cloth wheels, and fiber wheels.
- For use on low-speed handheld machines.
- Steel adapter for increased durability.
- Specially designed for backing pads, bonnets, sponges, and diamond pads.

2. Operating instructions

- Dry use only.
- Mount the adapter onto the M14 spindle using the lock nut.
- Tighten using a 19 mm open-end wrench.
- Mount backing pads with 5/8"-11H thread (items 2972, 1457, 1599).
- Proceed with the operation.

3. Safety information

- Always use proper personal protective equipment (PPE).
- Improper use may cause severe injury.
- Operate at low speed and with light pressure to prevent premature machine wear.
- Do not exceed 4,500 RPM.
- Use the correct wrench for tightening.

4. Handling

- Initial inspection must be carried out in the original packaging. If visible damage is detected, the product should not be accepted.
- Handle the adapter carefully to prevent impacts or drops that may reduce its service life.

5. Storage

- Store the adapter on a flat surface at least 10 cm above ground level, away from moisture, extreme temperatures, or any type of fluid.

6. Packaging units

- 1 piece.
